## Dental Education At Par With The Very Best

The School of Dental Sciences (SDS) was established in the year 2006. Now, part of Sharda University, it envisions an ambience of excellence, inspiring, value based education, research and development.

SDS imparts dental education of a very high standard to its students. The School has adopted innovative methods in teaching with community-based teaching education and research. The educational goal of SDS for its students is to ensure a holistic development in theoretical, practical and clinical skills with the aim to prepare compassionate human beings, caring, responsible and courteous dental professionals and society conscious citizens.

### Key Facts & Figures

- » One of the leading Schools of Dental Science in Delhi NCR
- » Well equipped dental labs with focus on making students learn the use of latest equipment
- » Faculty from top hospitals and dental colleges of India
- » Focus on participation in various dental competitions both nationally and internationally
- » Emphasis on 'learning by doing' to put theory into practice
- » Internship opportunities at the 1200+ beds Sharda Hospital
- » 280+ modern dental chairs, CBCT, Lasers and Implants

### Awards

- » Best Dental College, 4th Excellence in Dental Proficiency Awards 2019, by Indian Association of Dental Students
- » Among India's Top 30 Dental Colleges, Outlook 2019
- » Rank 28, India's Best Dental Colleges, India Today 2020

# Uniqueness Which Fuels Ambitions

School of Dental Sciences offers a unique global environment with students from different countries and continents studying in the same classroom. This gives students an opportunity to interact with and learn from their peers from other countries and to make long-term professional associations internationally.

School of Dental Sciences has been awarded Best Dental School in North by Education Leadership Awards 2017.

Super specialties in the areas of Oral Medicine & Radiology, Prosthodontics, Conservative Dentistry, Periodontology, Orthodontics, Oral Surgery, Oral Pathology & Microbiology, Pedodontics, Public Health Dentistry & Implantology.

Library with more than 6000 books and many reputed National and International print and e-journals.

Skill Enhancing Academy at School of Dental Sciences is a dedicated continuing dental education unit that is actively involved in conducting various scientific activities which are useful for both staff & students.

School of Dental Sciences is recognized by Min. of Health & Family Welfare, Govt. of India and Dental Council of India.

SDS is the only dental college in NCR having Medical College & hospital within the campus hence there is a lot of clinical material available to study.

# Faculty That's Truly Inspiring

School of Dental Sciences has distinguished faculty from reputed dental institutes in India. They have vast clinical and teaching experience, and are involved in path-breaking research work. They have published many papers in the national & International index journals. They have also presented scientific papers in the national & international conferences.

*"Thank you for choosing School of Dental Sciences to make your career in dentistry, and we assure you that each student who will graduate from this institute will not only become a competent dentist in society but also a good human being".*

**Dr. M. Siddharth**

Dean-School of Dental Sciences

## EAT

Discover multi-cuisine outlets on campus

## LEARN

Browse through lacs of books in libraries

## PLAY

Relax by playing many outdoor & indoor games

## EXERCISE

Stay fit at the on-campus gymnasium

## EXPERIENCE

Guest lectures, events & activities in auditoriums & seminar halls

## RESEARCH

Hi-tech labs & research centres

## CONNECT

Stay connected 24x7 through seamless Wi-Fi network

## EXPLORE

One of north India's biggest educational hubs

# Cultural Society of Sharda University

The Cultural Society of Sharda University is formed of 9 Clubs, where each of the clubs will be operated by student coordinators and board members under the supervision of faculty coordinators. The cultural society will be governed overall by the following functionaries:

- The Dean of Students' Welfare
- The Associate Dean of Students' Welfare
- Faculty Advisors of Cultural Society

## FINE ARTS CLUB

The Fine Arts Club brings out the hidden artistic talents of our students, cultural programmes are conducted during Independence, Sports and college day function. Students participate in Inter & Intra-College competitions. The purpose is to encourage students to express their thoughts and emotions through art.

## MUSIC CLUB

Music Club caters to the passion of student providing quality facilities like instruments, dedicated music room and a plethora of events. It serves as a platform for musicians of all genres and skill levels to showcase their talent at various events like Sufi Night and Voice of Sharda, etc. held at Sharda University.

## DRAMATICS CLUB

The Dramatics Club is for students who are interested in Performing Arts. The Club offers acting education, a creative outlet for theatrically minded students, and a variety of theatrical productions for the students to enjoy. In the past students from the Club brought accolades for the University in various events.

## DANCE CLUB

The Club was established with the mission of bringing out the hidden talents of students and also provides them a stage where they can showcase their dancing talent and interest. The Club provides lot of opportunities in the form of competition and workshops for igniting the spark of interest present in the budding technocrats and honing their skills towards showcasing their talents.

## LITERARY CLUB

The Club aims to foster love for language, enhance literary creativity and provide an avenue for self-expression beyond the school curriculum. It is also to develop and hone the literary skills of students and inspire them to develop a taste for literature by conducting various workshops. The Club also initiates competitions in extempore, essay writing, creative writing, poetry writing, debate, elocution, quiz and reading to enhance the speech and oratorical skills.

## DIVERSITY CLUB

Sharda University has a diversified group of students from across 80+ nationalities. The Diversity Club is dedicated in raising awareness of the various cultures among all students. Throughout the year various events are organized by the students to explore different cultures like Rejoice 3D, Festivals of Light, etc.

## FASHION CLUB

The Fashion Club aims to bring students together who have a passion for the fashion industry by participating in local and regional fashion events. Club members work with Fashion Merchandising students to help with events and activities on and off campus. The Club has hosted fashion shows, fashion showcases, and window dressings of local businesses.

## PHOTOGRAPHY CLUB

Photography Club of Sharda provides a platform where talent meets creativity and gives rise to productivity. Students are engaged in various activities that challenge their imaginative capabilities, assist in sharpening their photographic skills, and present an opportunity for students to learn from each other.

## ENVIRONMENTAL CLUB

The main purpose of the Environmental Club is to educate on sustainable practices, to implement change in the best interest of the environment, and to include all persons working to improve the future of our earth by conducting significant workshops and seminars.

**The Sharda Campus Life.**  
**Truly Extraordinary!**

## Dental Programmes Designed For Success

Established with an aim of developing top dentists, School of Dental Sciences has evolved into one of the leading Dental Schools in India. From the moment students arrive, they are considered to be the members of the dental community and are challenged to meet the expectations of all.

RECOGNISED BY  
DENTAL COUNCIL OF INDIA (DCI)

## PROGRAMMES OFFERED BY SCHOOL OF DENTAL SCIENCES

BDS	4+1 Years
MDS - Periodontology	3 Years
MDS - Oral Pathology & Microbiology	3 Years
MDS - Prosthodontics including Crown & Bridge	3 Years
MDS - Conservative Dentistry & Endodontics	3 Years
MDS - Oral & Maxillofacial Surgery	3 Years
MDS - Orthodontics & Dentofacial Orthopaedics	3 Years
MDS - Pediatric & Preventive Dentistry	3 Years
Ph.D - Periodontology	Min. 3 Years
Ph.D - Oral Pathology & Microbiology	Min. 3 Years
Ph.D - Prosthodontics including Crown & Bridge	Min. 3 Years
Ph.D - Conservative Dentistry & Endodontics	Min. 3 Years
Ph.D - Oral & Maxillofacial Surgery	Min. 3 Years
Ph.D - Orthodontics & Dentofacial Orthopaedics	Min. 3 Years
Ph.D - Pediatric & Preventive Dentistry	Min. 3 Years

# SCHOOL OF DENTAL SCIENCES

School of Dental Sciences (SDS) formerly known as Hindustan Institute of Dental Sciences was established in the year 2006. Now, part of Sharda University, it envisions an ambience of excellence, inspiring, value based education, research and development.

SDS is a Recognized Dental College for an intake of 100 admissions for BDS Programme and 21 admissions in seven MDS Programmes by Dental Council of India and Ministry of Health & Family welfare, New Delhi. SDS provides comprehensive facilities for teaching, research and patient care.

The classroom learning with state-of-the-art infrastructure adequately supported for clinical training in dental hospital having more than 285 electrical dental chairs with all other latest equipments and amenities. It has super specialties in the areas of Oral Medicine & Radiology, Prosthodontics, Conservative Dentistry, Periodontology, Orthodontics, Oral Surgery, Oral Pathology & Microbiology, Pedodontics, Public Health Dentistry and Implantology, providing an Ideal environment to excel. Library is having more than 6000 books and required numbers of National and International print and e-journals. The examination and evaluation is conducted by Sharda University. 8 batches of BDS students and four batches of MDS students have passed out from this institute.

**Recognitions:** School of Dental Sciences is recognized by Min. of Health & Family welfare, Govt. of India and Dental Council of India New Delhi for the admission of 100 seats per year for BDS Programme and 21 seats per year for seven MDS Programmes (3 seats each in 7 specialties).

## Key Departments:

School of Dental Sciences has nine Departments and one Continuing Dental Education unit; all departments are complimenting with each other in training the dental students and also to cater all types of dental patients.

**Oral Medicine and Radiology:** Identifying the basic disease of the oral cavity (Mouth) including the teeth and jaws, and administrating medical line of treatment

**Oral and Maxillofacial Surgery:** Surgical line of treatment of the Jaws, Teeth Gums. Treatment may be as simple as removal of tooth to performing major surgeries like in Accident cases, Cancer Patients, & also placing the Implants, new trends in dentistry.

**Periodontology:** This department deals with diagnosis, treatment and prevention of diseases related to gums and supporting tissues, Placing the dental implants & Maintenance of dental implant supported dentures.

**Orthodontics and Dentofacial Orthopedics:** Related to the management of malaligned Jaws & teeth and improving the appearance of the patients.

**Conservative Dentistry and Endodontics:** This department is specialized in performing simple filling of the decayed tooth/teeth, root canal treatment, Crown fabrication, Bleaching etc.

**Pediatric and Preventive Dentistry:** Related to the all kind of treatment for dental diseases done in children till 14 years of age

**Prosthodontics and Crown & Bridge:** This is the specialty in replacing missing tooth/teeth by making the partial denture, complete denture, crown & Bridges, and construction of missing part of the structure of Maxillo facial region. And actively involved in making Implant supported Dentures.

**Public Health Dentistry:** Related to Creating the Dental health awareness among the public by conducting regular Camps, Meetings, Survey etc...

**Oral Pathology and Microbiology:** Department is related to the learning of the different pathological process involving the Oral Cavity and its involvement in systemic disease and also teaching the undergraduate about morphology of the tooth / teeth.

**SEA@SDS (Skill Enhancing Academy at School of Dental Sciences)** a dedicated continuing dental education unit is actively involved in conducting various scientific activities which are useful for both staff and students. All departments contribute in organizing these activities.

## Bachelor of Dental Surgery (BDS)

Before understanding Dentistry, each student is made aware of the basic nature of Human body. They are also taught the morphology of each tooth, their identification; pathology involved in the teeth and associated structures like bone and gums. Various materials used in dentistry, their properties and selection. By the time they come to the final year each dental student are made aware of the dental diseases, their identification and various line of treatment. In the final year of BDS course each dental student will be involved in giving the dental treatment to the patient under the staff supervision.

After successful completion of the Final BDS, each graduate has to undergo one year rotatory paid internship Programme. In this programme they are posted in all nine departments on rotation basis for fifteen days to three months duration, so that they can perform and execute their skills learned during the four years of training on variety of Dental Patients.

### Eligibility Criteria:

#### For Indian Nationals (As per the Dental Council of India guidelines.)

- A candidate must be an Indian National and shall have passed 10+2 examination after a period of 12 years of study conducted by Boards/Councils/Intermediate examination established by State Governments/Central Government and recognized as equivalent to two year Pre University examination by the Association of Indian Universities with English as one of the subjects and Physics, Chemistry and

Biology as optional subjects. The candidate shall have passed subjects of English, Physics Chemistry and Biology individually also.

- Scheduled cast and scheduled tribe students shall be given relaxation of 10% in the aggregate marks required for eligibility.
- Candidate should have secured minimum of 50% marks in Physics, Chemistry and Biology taken together at the competitive entrance examination where such examinations are held for selection.
- The candidate shall have completed the age of 17 years at the time of admission or will complete the age on or before 31st December of the year in which he/ she seeks admission.

#### Admission procedure:

National Eligibility Cum Entrance Test (NEET) qualified students are only eligible to get the admission. For further inquiry kindly visit Admission cell Sharda University Greater Noida.

## MDS - Periodontology

### About the programme

MDS in Periodontology is a three year Postgraduate programme. Periodontics is a branch of dentistry that deals with diseases of the supporting and investing structures of the teeth including the gums, cementum, periodontal membranes and alveolar bone. The curriculum provides students identify the techniques to prevent the occurrence and cure the spread of damage already caused by the infection.

### Department of Periodontology

The Department of Periodontology generally deals with prevention, diagnosis & treatment of diseases related to gums and supporting bone around teeth. Services that are offered here include oral prophylaxis, curettage, abscess drainage, subgingival irrigation, fiber-splints, local drug delivery, anti-microbial photodynamic therapy, routine periodontal surgeries like gingivectomy, flap surgery, crown lengthening, operculectomy, frenectomy, regenerative procedures using synthetic & autogenous bone grafts, GTR, PRF and advanced surgical procedures including periodontal plastic surgeries and dental implants using RVG, Piezosurgical Unit, PRF centrifuge system, Electrocautery and Lasers.

The department has a total area of 4385 square ft. and has an undergraduate & postgraduate section with 45 dental chairs. Undergraduate section has thirty four dental chairs with attachments for accommodating nearly 100 students throughout the year. Here students on posting are being

taught about the subject through clinical discussions and demonstrations and are made to work on patients reporting to the department. The Postgraduate section has 11 dental chairs with attachments for accommodating 3 post graduate students per batch.

Department also has complete diagnostic & surgical set of instruments for carrying out day to day OPD work for patients. Apart from this it has fully equipped sterilization room, Minor OT for surgical procedures, a discussion room & a computer section with Wi Fi connection.

Department has latest ultrasonic devices like EMS & Cavitron scalers for performing oral-prophylaxis & electrocautery unit for performing surgical excisions & electro-coagulation in patients. It also has set of air-polishers for polishing of teeth. Apart from this, it also has latest surgical equipment such as centrifuge, soft tissue laser, physiodispenser for implant placement and implant kit, magnifying loupe with a set of micro-surgical instruments, etc.

Department's sterilization room is equipped with five front loading autoclaves. Along with this it has separate section for receiving, decontaminating, packing, and sterilizing & storage of instruments. Here the waste management is being carried out according to the latest prescribed standards.

## MDS - Oral Pathology & Microbiology

### About the programme

MDS in Oral Pathology & Microbiology is the specialty of dentistry that deals with the nature, characteristics, cause, effects and diagnosis of diseases affecting the oral and maxillofacial regions and study of the immune system.

### About the Department

Oral Pathology department is making substantial contribution in the detection of potentially malignant lesions and lending a helping hand to our fellow clinical experts in diagnosis of Oral Cancer.

### Infrastructure

#### Museum

The department Museum has well stocked charts, models, posters and specimens depicting various lesions in oral pathology and its comparative normal anatomy and histology for better understanding of the subject by the students.

Procedures Routinely Undertaken

- Biopsy (Routine H&E)
- Cytology
- Hematology
- Biochemistry
- Special Stains

The department has a well equipped histopathology lab for histopathological staining and various procedures can be undertaken for research oriented programs in oral pathology and other branches of dentistry.

### Departmental Facilities

- Basic Histopathology
- Hematology
- P.G. Work stations
- Internet Facility
- X-Ray view box
- Departmental library
- Cytology
- Microbiology
- Computer Facility
- LCD projector with remote
- Histopathology reporting room

- Separate undergraduate and postgraduate clinic
- Basic IHC set up with standardization of Ki67 Stain.

### Histopathology Laboratory

- Paraffin wax bath
- Slide-warming Table
- Microtome
- Chemicals and Reagents
- Monocular microscopes, Binocular compound microscope
- Research microscope with dark field, polarizing, fluorescent & phase contrast attachments
- Tissue Flotation Bath
- Micro slide storage Equipment
- Autoclave
- Wax block storage cabinet

### Hematology and Microbiology Laboratories

- Autoclave
- Incubator
- Blood cell counter
- Hemoglobin meter
- Microwave
- Sugar & Hemoglobin testing by Calorimeter Method.
- Digital pH meter
- Neuber Chamber
- Electronic balance
- Ultrasonic cleaner
- Syringe and needle destroyer

## MDS - Prosthodontics Including Crown & Bridge

### About the programme

This branch of dentistry deals with the aim to restore the lost parts of the tooth or replace missing teeth or associated structures with artificial substitutes in order to restore the patient in optimal function comfort esthetics and overall wellbeing of the patient.

This training programme is structured to achieve knowledge and skill in theoretical and clinical laboratory, attitude, communicative skills and ability to research with understanding of social, cultural, educational and environmental background of the society. The postgraduates will be able to provide Prosthodontic therapy for patients with competence and working knowledge with understanding of applied medical, behavioral and clinical science.

### About the department

The Department of Prosthodontics is concerned with Prosthetic rehabilitation of the patient and teaching & training the Under Graduate & Post Graduate students. The missing tooth/teeth in the Oral cavity may disturb the entire masticatory apparatus. It may lead to the movement of the teeth not only around the missing tooth but also on the opposite side; hence there may be food lodgments, pre mature contact, trauma from occlusion, supra eruption, altered speech, loss of appearance, foul smell (Halitosis) and also pain in the Temporomandibular joint. Thereby it is very essential to replace the missing tooth/teeth in the oral cavity.

Prosthodontics is the biggest branch in dentistry, Hence the under graduate teaching curriculum is distributed throughout five years of Dentistry programme which includes lectures, Practical's seminars and clinical teaching. Students are exposed to a variety of patients with prosthetic rehabilitation and all students to get extensive pre-clinical & clinical experience in the department. Clinical practice involves exposure to complete denture cases removable partial dentures & Introduction to fixed partial dentures and also handling the various dental materials.

The Post graduates are also trained to rehabilitate the patients with simple to more complicated dental prosthesis including Implantology. Now the department has become the center of excellence in the field of Implantology

The treatment provided in this department includes making of Complete Denture, Partial Denture, Fixed Partial Denture (Crown & Bridges), Implant Supported Crowns & Dentures, and Maxillofacial Prosthesis which includes Obturator, Ocular Prosthesis, Ear Prosthesis etc

Prosthodontist bring back the psychological confidence and Happiness in chewing.

## MDS - Conservative Dentistry & Endodontics

### About the programme

It is the branch of dentistry which deals with the treatment of caries, malformed, discoloured, nonesthetic, or fractured teeth and endodontics deals with treatment of pulpal and periapical diseases and dental pain management. The curriculum provides training in the prevention and treatment of the disease and injuries of the hard tissues and the pulp of the tooth and associated periodical lesions.

### About the department

Department of Conservative & Endodontics in School of Dental Sciences, Sharda University is being run by a team of highly qualified and dedicated staff.

Department of Conservative & Endodontics is located on 2nd floor in college, absorbing around forty five State of Art Dental Chairs for accommodating number of patients, in separate Under Graduate & Post Graduate clinical section. In separate Pre-Clinical Section, a Phantom head lab is provided to mimic real time patient care experience in lab setting. This provides necessary feel to the students before they enter into clinical section.

The Department, being axis of Dental School, receives and operates maximum number of patients related to conserving the teeth, like filling and root canal treatment. Specialized procedures like bleaching, cosmetic teeth corrections, veneering, single visit root canal treatment, and surgical corrections are also carried out on a daily basis in the

department. A special surgery room caters exclusively to surgical procedures.

Department is equipped with RVG (digital Radiograph) reducing radiations up to 80% ensuring safety of patients and doctors. With instant X-ray, time of procedure is greatly reduced.

Sterilization room with fully automated equipment is managed by a trained sterilization nurse, ensuring cross contamination control and sterile instruments provision for patient procedures.

Latest equipment like full mouth bleaching unit, equipment for warm gutta percha technique, Apex locator, motorized hand piece for rotary root canal preparation, broken instrument retrieval kit, surgery kits, magnification equipment, variable intensity light cure units for state of the art tooth colored fillings are being used for quality clinical procedures.

Audiovisual room with LCD projector, department library with select book titles, printer and scanner, are available to facilitate the learning process for students. To be updated with the latest treatment & research developments globally, round the clock internet accessibility to international and national journals is available.

## MDS - Oral & Maxillofacial Surgery

### About the programme

Oral and maxillofacial surgery is one of the specialties of dentistry to treat many diseases, injuries and defects in the head, neck, face, jaws and the hard and soft tissues of the oral (mouth) and maxillofacial (jaws and face) region. The objective of the Oral and Maxillofacial Surgery programme is to prepare graduates for a successful and productive career in Oral and Maxillofacial Surgery. The curriculum is designed to develop the clinical, academic, and communicative skills that will provide for diversified career options.

### About the department

Oral and Maxillofacial Surgery is that branch of Dentistry that deals with diagnosis, surgical and adjunctive treatment of diseases, injuries and, defects of human jaws, oral cavity and associated structures.

Gone are the days when oral surgeon's role was limited to extraction of teeth and minor oral surgeries, with the advent of modern science, the scope of oral and maxillofacial surgery has dramatically widened.

The science of oral and maxillofacial surgery is an important link between dentistry and medicine. The tooth bearing jaws and allied structures frame the internal support of the soft tissues of the face. We as a maxillofacial surgeon deal with bony and soft tissue complex in around the oral cavity jaws and face.

Surgical management of Oro-Facial region deals not only with

Exodontia and minor oral surgeries but also with impactions, space infections, Preprosthetic Surgeries, Facial trauma, management of TMJ disorders, maxillary sinus, cleft lip and palate and other congenital Dentofacial Deformities, Orthognathic Surgery, Maxillofacial Pathologies like cysts and tumors, salivary gland disorders, Oral cancer, Ablative and reconstructive surgeries along with advanced surgical procedures like Distraction Osteogenesis, Facial cosmetic surgery and reanimation.

The Oral Maxillofacial Department in collaboration with Dept of Periodontics and Prosthodontics is also venturing in to the field of Oral Implantology.

Department of Oral and Maxillofacial Surgery has a dedicated, outstanding, experienced clinicians and eminent teachers who have received advanced training from well reputed institutes from different parts of India.

The Department is affiliated to 900+ bedded Sharda Superspeciality Hospital with all the advanced facilities which is located within the University campus.

The operation theatre, recovery and ICU are well equipped and with the support of medical team we are catering a wide population of NCR, Greater Noida, Western U.P addressing and surgically treating a plethora of maxillofacial problems.

## MDS - Orthodontics & Dentofacial Orthopedics

### About the programme

Orthodontics and Dentofacial Orthopaedics is the Speciality in dentistry that focuses on the alignment of the teeth and the dental arches: the maxilla and the mandible. The practice of this Speciality includes diagnosis, prevention, interception, and correction of malocclusion and other abnormalities of the developing or mature orofacial structures. The programme provides a comprehensive curriculum which prepares qualified graduates or dentists to Orthodontics and Dentofacial Orthopaedics specialists. The postgraduates learn a variety of treatment modalities under the tutelage of experienced teaching faculty.

### About the department

The Department boasts of state-of-the-art treatment facilities. Currently it is running an undergraduate and a post graduate programme. The students are encouraged to attend continuing dental education programs/workshops/summits/conferences etc. They are also motivated and guided for scientific presentations at specialty conferences and scientific publications in reputed journals.

Undergraduate section has eighteen dental chairs with attachments for accommodating nearly 100 students throughout the year. Here students on posting are being taught about the subject through clinical discussions and demonstration and are made to work on patients reporting to the department.

Postgraduate section has adequate dental chairs with all modern amenities. The post graduate program prepares qualified dentists to manage the full range of Dentofacial discrepancies which fall within the responsibility of the Orthodontics.

Department also has complete diagnostic & surgical set of instruments for carrying out day to day OPD work for patients. Apart from this it has fully equipped sterilization room, discussion room & a computer section with Wi Fi connection. Department has latest dolphin system and scanner and the latest model of biostar machine.

Department's sterilisation room is equipped with two front loading autoclaves. Along with this it has separate section for Receiving, Decontaminating, Packing, Sterilizing & Storage of instruments. Here the waste management is being carried out according to the latest prescribed standards.

Department is committed to excellence. Our aim is three fold: imparting quality education, encouraging research work in the field of orthodontics and providing quality patient care at affordable cost. We believe that doing our job with highest standard of professionalism and ethics will go a long way in contributing in building the nation.

## MDS - Pediatric & Preventive Dentistry

### About the Programme

Pedodontics is an age defined specialty that provides primary and comprehensive, Preventive and Therapeutic oral health care for infants and Children through adolescence, including those with special health care needs.

More than 40% (approx.) of the Indian population is aged less than 14 years. The potential of pediatric dentistry is huge going by the sheer number of children our country has.

The training includes didactic interaction & exposure to all kinds of real life clinical situations & is based on evidence-based information and utilizes problem-based learning among others.

### About The Department

The department is located on the fourth floor of the college building with separate under graduates and post graduate sections.

The department balances teaching, patient care and professional service activities. The departmental faculty is sincerely and enthusiastically involved in didactic, preclinical, clinical, continuing education and teaching activities.

The department has a play area with colorful pictures and toys providing a patient friendly environment.

The training includes didactic interaction & exposure to all kinds of real life clinical situations & is based on evidence-based information and utilizes problem-based learning among others.

### Teaching Programme

Our training programmes are focused on the provision of quality educational experiences to train clinically competent dentists. Undergraduate students are thoroughly trained in comprehensive preventive & therapeutic procedures for all the dental problems commonly encountered in children. They routinely carry out restorative procedures, oral prophylactic work, topical fluoride application and minor surgical procedures. Students are also taught the importance of prevention with stress being placed on various preventive strategies to reduce the incidence of dental diseases in children.

Students are assessed from time to time by internal assessment exams, Case discussions, demonstrations, group discussions, viva, seminars and Journal completion.

## Views that speak excellence

**Dr. Aparana Sharma (3rd year MDS)**

I am a proud Shardan who had an enriching learning experience during both my undergraduate and post graduate time. The faculties here are experts in their field and were able to extract the best out of me. I have been able to reinvent myself into a more confident individual and able to broaden my horizons. I can proudly say that Sharda University has made me a better person individually as well as professionally. I am blessed to be a part of Sharda family.

**Ms. Ayushi (4th year BDS)**

Sharda University is a great home -away-from- home anyone could ever have. What a great atmosphere- what a great bunch of students- what an institute what an incredible staff! I am glad, I am part of this truly global university.

**Ms. Namrata Gaur (4th year BDS)**

Sharda University is a wonderful institution. There are people from different cultures here, and that interests me. I like the campus life a lot!

**Dr. Shankul Bhatnagar (Internee)**

I was always told in my childhood that college days are the best days. When I joined School of Dental Sciences, Sharda University for my undergraduate programme, I realised how true the saying was. Living in a campus with such diverse culture and so many different extra curriculum activities, you learn so much about life and that helps you grow and become wise as a person.

Joining Sharda University has been the best decision for my career prospects and has indeed been the best experience of my life.

## Greater Noida. Hub of Education in Delhi-NCR.

Situated adjacent to New Delhi, Greater Noida is one of the fastest developing educational hubs. Home to some of the leading universities in India, Greater Noida sees lots of international students pursuing their career dreams.

India's first ISO 9000-2000 certified city, Greater Noida is amongst the cleanest, greenest and most well planned cities of India. Greater Noida is amongst the selected cities of the world, chosen for F1 Grand Prix Race.

Sharda University campus at Knowledge Park III is the largest in Greater Noida & the entire NCR.

“Greater Noida integrated township is shaping up as India's smartest city, the National Capital Region's most modern urban development centre and its fastest-developing centre of attraction. It has emerged as a modern model of far-sighted town planning.”
